Form for the Examination of Computer Science Project Presentations.

Student ID: Name:
Student ID: Name:
Student ID: Name:

Project Title:

Please, complete this form, giving marks (from 0 to 10) for each item. You can add a comment after each item, and a final grade comment at the end.

1) Was the presentation well organized? Did it tell a coherent story? [0 – 10]
comments:

2) Summarised the problem, the solution and the results: [0 – 10]
comments:

3) Explained the tools used (e.g., algorithm, libraries, computational environment): [0 – 10]
comments:

4) Explained the implementation approach (e.g., design): [0 – 10]
comments:

5) The results were compared to other previous works: [0 – 10]
comments:

6) The presentation/demonstration showed that adequate software tests were carried out: [0 – 10]
comments:

7) The demonstration of the software clearly shows what was achieved: [0 – 10]
comments:

8) Answering questions (engaging and responding appropriately): [0 – 10]
comments:

Total marks for the Report:
